

# CHANGE THROUGH EDUCATION

INTRODUCING THE VISION OF THIS CHARITY

## FROM CHRISTIAN PÄLCHEN

I would like to take this opportunity to introduce you to my registered charity, **Change Through Education**. Our slogan and mission is Change Through Education and Cooperation and we believe that Christians have a duty to share with others from their wealth, intellect and resources. This charity has two primary goals which will hopefully be reached through two different platforms: ICS-Christian-School-Founding.org and Christiannonprofitconsulting.com, both running under the name of our registered charity.

Through **ICS-Christian-School-Founding**, our first goal is to offer Christian organisations most of what you need to establish a Christian school with an independent curriculum. ICS-Christian School Founding offers churches and Christian Institutions a platform that hopes to instil teacher and student exchanges and outstanding resources for their school founding project. Furthermore, we offer concepts and plans for the following:

- Teacher Manuals and School Materials
- ICS-School-Founding Concept
- Christian Church Singles Concept
- Life Skills Conference Concept
- Conference of Cooperation Concept

The second vision of Change Through Education is accomplished through **Christian Non-Profit Consulting**, an organisation that has recognised the worldwide potential for companies, universities, students, graduates, specialist and senior specialists to help Christian non-profit organisations with their needs. The platform's function is to connect both sides so that knowledge and funds can be shared and received in a professional manner. Our user-friendly search engine allows you to search for an NPO or organisation based on country, fields of work and expertise etc.

Please can you take a moment to consider partnering with us and endorsing Change Through Education? As a charity, we are dependent on donations to run these platforms and are controlled through the German Tax organisation. Our pursuit is to increase the wealth of education around the world and the opportunity for people to partner with one another and cooperate together for God's glory and the good of the next generation.

To find out more, phone: 049-5722-920 170 4 or e-mail: [info@change-through-education.org](mailto:info@change-through-education.org)  
Regards, Christian
